## Aluminum Dump Bodies

**HARDEE** was one of the first to answer the growing demand for lighter, corrosion resistant bodies. Hardee brand of dump bodies and flat beds manufactured from durable 5454H32 aluminum alloy, which is 40 percent lighter than standard steel. Aluminum bodies don't just **LOOK GREAT**, their increase in payload capacity puts extra **\$\$\$\$ IN YOUR POCKET**, and that makes them **BEAUTIFUL**.

- Aluminum material available in 10 ga. through 1/2"
- Dirt-shedding 45 degree slope on flat surfaces
- 5-3/4" Aluminum I-beam long sills with rubber cushion inserts
- 4" Aluminum I-beam crossmembers
- Heavy duty flame cut steel tailgate hinges
- Cast steel tailgate latches
- Heavy duty steel body hinges
- Aluminum electric drive tarp systems
- Air operated tailgate

**Dump bodies are available in 6-in. increments ranging from 10 ft.- 22 ft.**

## Trash Bodies

- 10 gauge through 3/16" high tensile steel construction
- 45 Degree sloped inside corners
- Structural steel understructure
- Fully boxed and welded top rail
- Double barn door style tailgate
- DOT approved lighting

## Tandem/Triaxle Dump Bodies

- 3/16" High tensile floor and tailgate standard
- 10 Gauge high tensile sides and headboard
- 45 Degree sloped inside corners
- Structural steel understructure
- Fully boxed and welded top rail
- Driver's side ladder inside and out
